Racially Identifiable Schools within District
If you have been notified by the Minnesota Department of Education (MDE) that your district has a racially identifiable school, please list each of those schools below. Add additional lines as needed.

1. N/A

Plans for racially identifiable schools should include the same information and follow the same format as districtwide plans. Provide that information in the Racially Identifiable School section of this document.

Partnering Districts Racially isolated districts must partner with adjoining districts on student integration strategies (Minn. R. 3535.0170). List the districts you will partner with, adding additional lines as needed. Provide the name of your integration collaborative if you have one: Nobles County Integration Collaborative.

School Board Approval
☑ We certify that we have approved this Achievement and Integration plan and will implement it as part of our district’s World’s Best Workforce plan (Minn. Stat. § 124D.861, subd. 4).

☑ We certify that we sought and received input on integration goals and strategies from councils as described on page 2. The council(s) included representation and meaningful input from our American Indian Parent Advisory Committee as required by Minnesota Rules 3535.0160, subpart 2, and Minnesota Rules 3535.0170, subparts 2-5.

The community planning process used to prepare this Achievement and Integration Plan started in September of 2015. Nobles County Integration Collaborative worked with the Minnesota Education Equity Partnership to gather data on integration and student achievement in its member districts. The data was shared with community members at an Education Equity Summit on Saturday, November 7, 2015. Following the summit, several participants volunteered to assist with additional needs assessment projects and action planning steps, which were conducted throughout 2016. Additionally, NCIC staff members attended MDE’s AI Plan guidance session in October 2016 and followed-up with the recommended needs assessment, data analysis and plan completion. The result is this 3-year Achievement and Integration Plan for fiscal years 2017-2020.

The planning process used to prepare the fiscal years 2021-2023 Achievement and Integration Plan included NCIC staff meeting with individual member district’s administrators and the World’s Best Workforce team to review the current Achievement and Integration Plan for the district. The team discussed what changes they would like to see in their plans in order for the work of NCIC to be most effective. The team reviewed current plans and progress reports in order to determine the Achievement & Integration Plans for fiscal years 2021-2023 for each district.

In addition, NCIC staff, administrators, and school board members have met multiple times throughout the year to discuss progress towards Achievement and Integration goals, shared up-dates on programs, and conducted yearly building walkthroughs and review of data.

Goal #1: By 2023, the percentage of students in the FRPL subgroup of 3rd grade will increase from the current proficiency level of (CTSTR) by 10% or greater as measured by the MCA’s in Reading.

Aligns with WBWF area: All 3rd graders can read at grade level.

Goal type: Achievement Disparity

Strategy Name and # Interventionists 1.1

Type of Strategy: Innovative and integrated pre-K-12 learning environments. * If you choose this, complete the Integrated Learning Environments section below.

Integrated Learning Environments (Minn. Stat. § 124D.861, subd. 1 (c)). If you chose Innovative and integrated pre-K through grade 12 learning environments as the strategy type above, your narrative description should describe how the different aspects of integrated learning environments listed below are part of that strategy:
Uses policies, curriculum, or trained instructors and other advocates to support magnet schools, differentiated instruction, or targeted interventions.

- Provides school enrollment choices.
- Increases cultural fluency, competency, and interaction.
- Increases graduation rates.
- Increases access to effective and diverse teachers.

Narrative description of this strategy

An Interventionist will work with students in need of additional interventions to master grade-level skills. Interventionist will have the opportunity to work with students during the school year in a small group-setting classroom, one-on-one, or virtual in all subjects based on data review and teacher referral. Specific skills are determined based on individual cases.

Narrative description of this strategy

Students experience multi-district racially/ethnically integrated learning experiences through grade-level partnerships. All six member districts participate. Students from all member districts will meet together in integrated small groups. 5th grade will meet together to learn about the virtue of kindness and learn how to deal with bullying. 7th grade will meet together to lean about the virtue of courage and to develop leadership skills. 9th grade students will meet together to learn about respect and identify. High school leaders from all member school districts will assist with facilitating integrated small group discussion and activities. NCIC Youth Development Leaders will also go into grade level classrooms to do follow-ups after the retreats.

**Narrative description of this strategy.**

NCIC Equity Council will assist member school districts with development of new recruitment and retention strategies for racially/ethnically diverse teachers and staff. The council will review research and recommend culturally responsive policies and practices to administrators/school board members. The Equity Council serves student by providing guidance to all NCIC programs, such as, monitoring NCIC programs progress, attendance, participation, and makes recommendations for program changes or additions. In addition, board members serve as community liaison to share program information and recruit students and families.

Creating Efficiencies and Eliminating Duplicative Programs

Briefly explain how this plan will create efficiencies and eliminate duplicative programs and services (Minn. Stat. § 124D.861, subd. 2 (c)). By collaborating with adjacent school districts, the members of Nobles County Integration Collaborative make efforts to maximize impact and reduce duplication of effort. Now that the focus is on academics more than on integration, more of the programs will be offered independently in each district, rather than jointly for the region. This will probably increase participation in voluntary activities because the activities will be offered locally rather than at a geographically central location, however, it will reduce the amount of intercultural learning experiences for students in the districts that have fewer racially/ethnically diverse students.
